

Coronavirus Disease 2019 (COVID-19) Situation Update – 14 June 2020

Data curated by Johns Hopkins CSSE, including DHHS, WHO, CDC, ECDC, NHC, and DXY and current as of 6:50 19 June 2020

Highlights

- Positivity rate and 7-day average of positive cases continues to improve in the health district
- Phase III Directed Health Measures will go into effect Monday, June 22nd
<http://dhhs.ne.gov/Pages/COVID-19-Directed-Health-Measures.aspx>.
- Test Nebraska testing will be offered at three locations in the health district in the coming weeks: Good Neighbor Community Health Center Columbus, Columbus Community Hospital, and CHI Health Schuyler.

SITUATION IN NUMBERS

Boone County

- Cumulative cases: 7
- Recovered cases: 7
- Deaths: 0
- Positivity rate*: 3.7%

Colfax County

- Cumulative cases: 655
- Recovered cases: 636
- Deaths: 4
- Positivity rate: 47.9%

Nance County

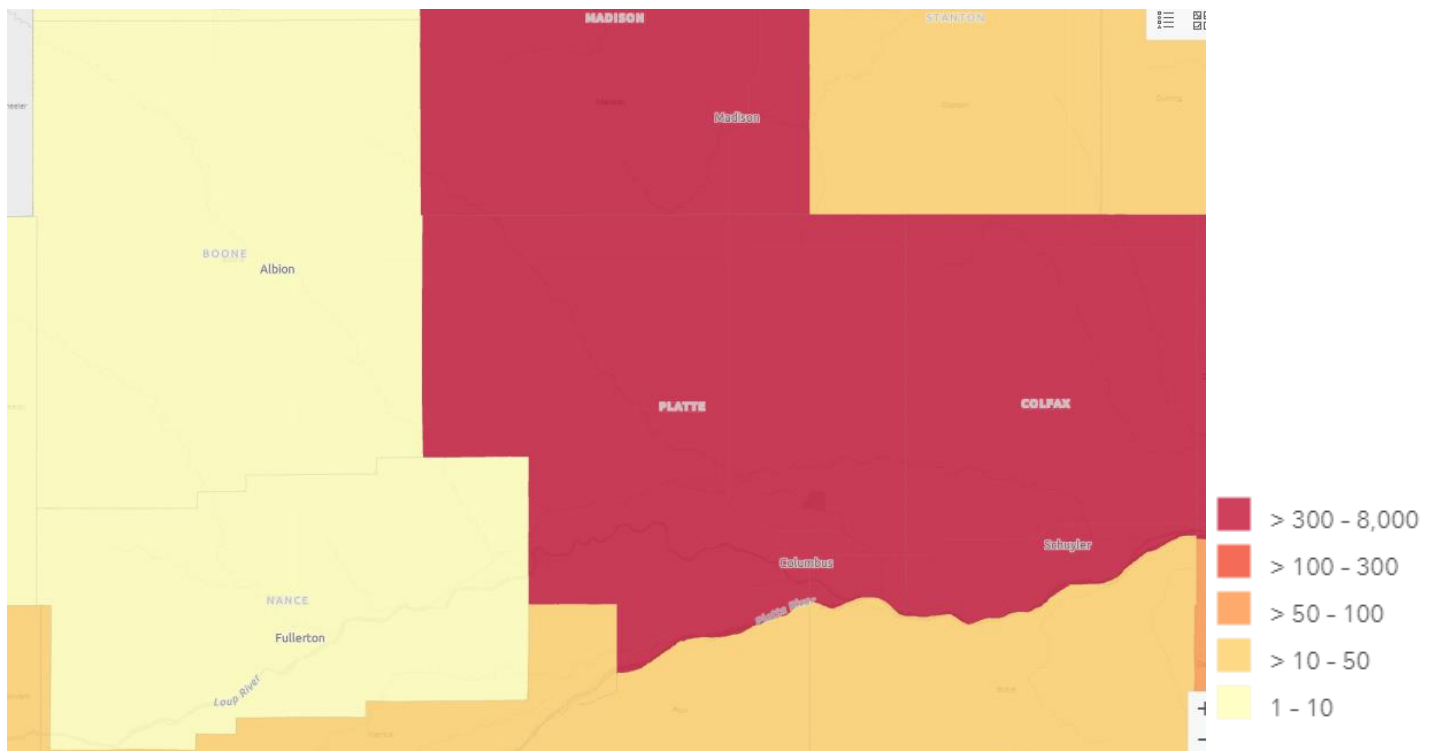

- Cumulative cases: 4
- Recovered cases: 4
- Deaths: 0
- Positivity rate: 2.8%

Platte County

- Cumulative cases: 652
- Recovered cases: 634
- Deaths: 2
- Positivity rate: 23.3%

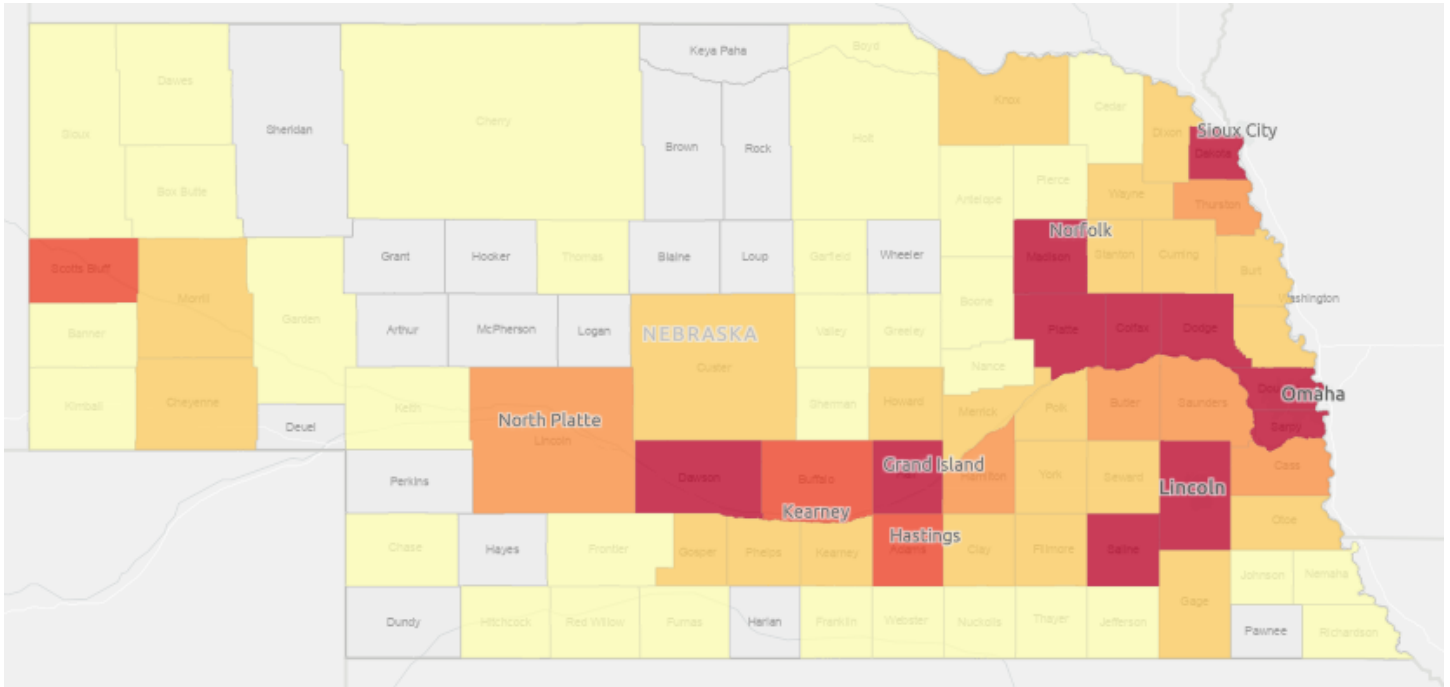

*Number of confirmed positive cases divided by number of tests times 100

STRATEGIC OBJECTIVES

ECDHD's strategic objectives for this response are to:

- Interrupt human-to-human transmission including to reduce secondary infections among close contacts and health care workers, prevent transmission amplification events, and prevent further spread.*
- Identify, isolate and care for patients early, including to provide optimized care for infected patients.
- Communicate critical risk and event information to all communities and counter misinformation.
- Minimize social and economic impact through multisectoral partnerships.

*This can be achieved through a combination of public health measures, such as rapid identification, diagnosis and management of the cases, identification and follow-up with contacts, partnership in infection prevention and control in health care settings, implementation of health measures for travelers, raising awareness in the population and risk communication.

RECOMMENDATIONS AND ADVICE FOR THE PUBLIC

Get the facts on COVID-19 from reliable sources to help you accurately determine your risks so that you can take reasonable precautions. Seek guidance from your healthcare provider, ECDHD, DHHS, CDC, or your employer for accurate information on COVID-19.

It is important to be informed of the situation and take appropriate measures to protect yourself and your family. For most people, COVID-19 infection will cause mild illness; however, it can make some people very ill and, in some people, it can be fatal. Older people, and those with pre-existing medical conditions (such as cardiovascular disease, chronic respiratory disease or diabetes) are at greater risk for severe disease. Stay up to date with the latest information from the CDC [here](#).
